

The City of Chippewa Falls has been involved in the Groundwater Guardian program since 1996. The Groundwater Guardian is a program of [The Groundwater Foundation](#). The Groundwater Guardian's activities address the community's groundwater protection by education and awareness, pollution prevention, public policy, conservation and best management practice.

In an effort to promote water conservation, the **Groundwater Guardian has water conservation kits free for City residents**. The kit includes a two flow rate showerhead, a 1.5 gpm swivel kitchen aerator, two 1.0 gpm faucet aerators and a packet of toilet leak detection tablets. **Stop by the utility office on the second floor of City Hall, 30 West Central Street to pick one up. The office is open Monday through Friday, 8:30 – 4:30.**

If you are interested in volunteering or if you would like more information about the Groundwater Guardian, please contact the Chippewa Falls Water Department at 726-2741 and ask to talk to a member of the Groundwater Guardian Team.

Thank you,

Chippewa Falls Groundwater Guardian.
