9. **Transfer of Balance to Collection Agency:** In the event the patient has a co-pay or co-insurance that they do not pay timely it will be at the discretion of the Service billing as to if/when the account is turned over to a Collection Agency. If a

Purpose: The purpose of this Chapter is to ensure the health, safety, and general welfare of domestic animals by requiring that they are adequately fed, watered, and sheltered, and to require forfeiture for caretakers who neglect, abuse, or refuse to provide adequate care and supervision for domestic animals in their custody. This Chapter adopts the provisions of Wis. Stat. 951.01-951.15 by reference.

Definitions.

- A. "Caretaker" means a person or persons responsible for the care and safety of the animal and may include the owner of the animal or an individual who is not the owner and resides within the same residence as the animal and who assumed responsibility for the care of the animal; or an individual who is caring for the animal in the absence of the owner and who violates the provisions of this ordinance.
- B. "Animal" for purposes of this chapter "animal" is generally considered to be a vertebrate animal, typically a domesticated dog or cat, and may include other domesticated animals.
- C. "Abuse" shall mean to intentionally torment, strike, physically harm or mutilate an animal in a manner that causes the animal to suffer severe pain or injury, and includes torturing an animal which includes any action that inflicts extreme physical pain or injury on an animal through acts of abuse, by purposeful electrocution, freezing, heating, poisoning, or shooting at animal; in addition abuse can be caused by purposefully exposing an animal to dangerous situations including dangerous chemicals, other dangerous or infected animals, instigating animal fights. Knowingly or unknowingly leaving an animal exposed to extreme weather conditions such that it may cause injury or death.
- D. "Neglect" shall include the failure of the caretaker or owner of the animal to provide proper care for the animal by failing to provide adequate shelter, clean water, nutritious food, and grooming care for the animal. "Neglect" shall include leaving an animal exposed to the elements either in an enclosure or tethered for more than 24 hours, failing to provide food and clean water for the animal, failure to attend to sores, injuries, or illness of the animal, failure to properly groom the animal so as to allow matting or burrs in the animal's fur, or allowing nails to grow where they are overturned. Neglect also includes the failure to

provide vaccination against rabies.

E. "Tethering" is the act of attaching an animal to a fixed object or building by means of a rope, chain, cable, leash, or other means. Tethering is not permitted as a means of permanent or primary confinement and shall not be done when the animal is unattended by its caretaker for a period of more than 24 hours, or in a manner that leads to abuse, neglect, or cruelty to the animal.

F. "Shelter" is a man-made structure that provides an animal protection from the elements including the sun, wind, cold, rain or snow.

G "Collar" is a piece of fabric, leather, or other material placed around an animal's neck for the purpose of providing a place to attach a tether, licenses, or other identifying information about the animal.

Tethers attached to fixed object shall be at least 10 feet long and shall allow the animal to reach food, a constant supply of clean water in a secured container, and adequate shelter. Tethers shall be made of material at a weight that it will not injure, or unnecessarily burden the animal because of the size or weight of the tether in comparison to the size and weight of the animal; no more than one-eighth of body weight of the animal. Tethers shall be attached to the animal in a manner that allows the owner sufficient control of the animal but does not harm the animal. Pinch, prong, or choke collars are prohibited for tethering to a fixed object. No animal shall be tethered outside during extreme weather conditions constituting a health

hazard to said animal. No animal shall be tethered outdoors for a period of longer than 30 minutes in temperatures above 90 degrees or below 32 degrees Fahrenheit. No animal shall be continuously tethered for a period of more than 24 hours.

(b) Shelters must consist of at least four walls, a roof, and a solid non metal floor.

(c) Shelters must be waterproof and windproof with no gaps that allow light or wind in.

(d) Shelters must be built in such a manner to create adequate drainage around the shelter to prevent standing water or ice to accumulate inside, or around the perimeter of the shelter.

(d) Shelters must have an entrance that will keep the wind from blowing in.

(e) The shelter must contain sufficient space to allow the animal to sit, stand, turn around and lie down, but be a size to allow the animal to retain or dissipate body heat that is appropriate for the animal's age, breed, health, and physical condition.

(f) Shelters must be kept clean, dry and contain a sufficient quantity of suitable bedding material to provide insulation and protection against cold and dampness and promote retention of body heat.

(g) Interior surfaces that cannot be cleaned and sanitized must be replaced when worn or soiled.

(h) Shelter must provide sufficient shade and ventilation to prevent an animal from overheating and/or dehydrating.

(i) Materials not suitable for shelters include but are not limited to:

No person may leave an animal unattended in a vehicle in conditions that endanger the health or safety of an animal due to excessive heat or cold, lack of ventilation, lack of water, or other conditions that could cause suffering, injury, or death to the animal

E. To commit acts of abuse or neglect on an animal as defined by this chapter.

Penalty. Any person who violates or refuses to comply with the provisions of this chapter shall be subject to forfeiture of not less than \$100 and not more than \$500. Each day a violation exists shall be considered a new and separate offense.
